

# Personal Development ; Handbook

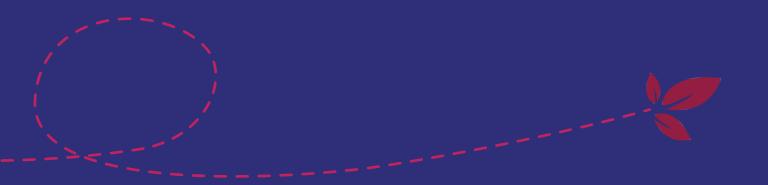

### Welcome to the

# Netherwood Academy Personal Development Handbook

At Netherwood Academy, we strive to fulfil the potential of all students. Academic success of our students is a key priority, but Netherwood Academy is equally committed to nurturing essential life skills to allow our students to thrive in the wider world. These skills and knowledge are delivered through our bespoke Personal Development programme which has been designed to suit the needs of our community.

Personal Development is delivered through three discrete core themes; Relationships and Sex Education, Health and Wellbeing and Living in the Wider World. These lessons are interactive, participative and engaging; students' views are sought and members of the student council are involved in the development of the curriculum. All lessons aim to celebrate and respect the diverse nature of British society, including different cultures, ethnicities, disabilities, faiths, ages, sexual orientations and gender identities.

Our Personal Development curriculum is a carefully sequenced, responsive curriculum that is increasingly ambitious vear on vear and accessible to all students. The statutory quidance is comprehensively covered by learning opportunities across all three core themes. Even though much of 'Living' in the Wider World' is not included in statutory requirements, the theme as a whole remains vitally important for students' Personal Development and economic wellbeing. This strand also helps Netherwood Academy to meet the Gatsby Benchmarks for careers education as part of the DfE Careers Strategy, as we seek to nurture aspiration and inform our students about the range of opportunities open to them including higher education, apprenticeships and employment.

## Programme of Study

The programme of study identifies a broad range of important issues which are relevant for young people in the modern world, such as healthy relationships, alcohol, drugs and mental health.

Personal, Social, Health and Economic (PSHE) Education is one aspect of Personal Development. This is a school curriculum subject that focuses on teaching how to keep young people healthy, safe and prepare them for life and work. PSHE not only supports students' health, relationships and wellbeing but also their academic attainment. A DfE review of PSHE education provision found a range of positive outcomes, including improved attitudes to health, being able

to deal with personal difficulties and improved behaviour.

At **Key Stage 3**, students build on the knowledge and understanding, skills, attributes and values they have acquired and developed during the primary phase. PSHE acknowledges and addresses the changes that young people experience, beginning with transition to secondary school, the challenges of adolescence and their increasing independence. It teaches the knowledge and skills which will equip them for the opportunities and challenges of life. Students learn to manage diverse relationships, their online lives, and the increasing influence of peers and the media.

At **Key Stage 4**, students deepen their knowledge and understanding, extend and rehearse skills, and further explore attitudes, values and attributes acquired during key stage 3. PSHE reflects the fact that students are moving towards an independent role in adult life, taking on greater responsibility for themselves and others.

### RSE

### Relationships and Sex Education

At Netherwood Academy, all staff sensitively teach lessons to help our students identify signs of healthy and unhealthy relationships and their impact. We aim to develop knowledge and understanding of the different types of families and relationships, including LGBTQ+.

Students are shown how to develop positive and healthy relationships with

their peers, both now and in the future, as well as demonstrating respect for themselves and others.

Students will also develop knowledge and understanding of their own emotions, so they are able to manage them effectively.

Sex Education is taught from Year 9 by specialist staff who provide information about sexual health, intimacy and staying safe in sexual relationships as directed by the DfE's statutory guidance on RSE. Parents have the right to withdraw their child from sex education but not from lessons on relationships.

## Health and Wellbeing

We help students get to know and understand their bodies, including having a healthy and positive body image. Students develop knowledge on the importance of diet, fitness, oral hygiene and the impact of puberty. Positive selfesteem is nurtured by promoting self-

care and encouraging all students to talk about their emotions, signposting where students and families can access support.

Students are educated in how to look after their own, and others', mental health and wellbeing. Students also learn key life skills, such as how to respond in emergency and non-emergency situations, and first aid.

### Living in the Wider World

British Values are embedded into every strand of Personal Development. Students are taught - through a range of lessons, enrichment activities and the ethos of the school - how to apply the British Values of democracy, rule of law, individual liberty, mutual respect and tolerance for different faiths and beliefs, to support a positive outlook towards school and the wider community.

Through a range of real-life situations, students are supported to apply their skills and attributes to navigate their

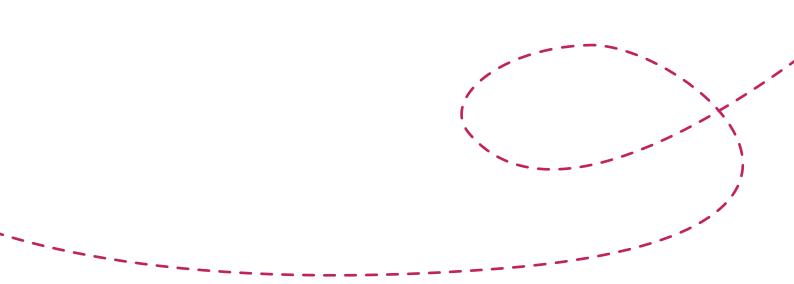

way through modern life. Our tailored careers guidance interventions boost selfconfidence and enhance decision-making skills helping students to understand post-16 pathways. Students are taught about risks such as knife crime, strangers, road, rail and water safety, drugs, gangs, sexual harassment, anti-discrimination and extremism. Lessons provide advice on how to stay safe online and the impact of digital footprints, as well as how to report concerns. Students develop ageappropriate knowledge on saving, debt and budgeting, helping them to make informed choices as they progress through the different life phases.

### **CEIAG**

### Careers Education, Information, Advice and Guidance

Students are provided with a range of information about future choices and given a significant amount of support in relation to their next steps.

Students develop their knowledge and understanding of employability skills, and learn how to successfully apply for college or post-16 courses and how to access a variety of employment opportunities, understanding how to create a professional CV and how to effectively plan and perform in an interview.

### **Student Voice**

Students' opinions and views are heard and regularly collected, so that they feel part of the Personal Development offer at Netherwood Academy. Student feedback is valued and their ideas help our team to adapt the Personal Development offer to suit their needs. There are numerous opportunities for students to lead initiatives and deliver change, which helps to develop skills for the wider world.

Our Student Council is democratically elected, including students from all year groups.

### **SMSC**

### Spiritual, Moral, Social and Cultural Development

There are opportunities in lessons across the curriculum to develop student understanding of SMSC.

 Spiritual – students connect with other faiths and values and reflect on their experiences.

- Moral students understand the difference between right and wrong, consequences and how to solve moral/ social dilemmas.
- Social students develop and use a range of social skills with others and feel a part of our school and the wider community.
- Cultural students develop knowledge, understanding and appreciation of their own culture or heritage.

### Character Education

"Character becomes your destiny," Lao Tzu, Philosopher

The choices an individual makes determine their future, and the purpose of developing good character is the ability to make good choices. Character allows us to flourish as individuals, and as a wider society. Character education at Netherwood is shaped by the needs of the students and our community. It

is planned, intentional and embedded as part of our Personal Development programme.

To support successful character education, Netherwood Academy provides opportunities for students to strengthen their character with a wealth of activities in lessons, as part of enrichment programmes and work with the wider community. In lessons, students are exposed to a series of ageappropriate moral dilemmas to help them identify values that are important when making decisions.

## Wider Opportunities

We provide all students with the opportunity to participate in initiatives and activities, which aim to develop their interests, talents, leadership skills and

connections with the local community. This is conducted through an array of enrichment opportunities such as sports leaders qualifications, Duke of Edinburgh, Student council, etc. Engagement in these opportunities is monitored and analysed to ensure equity for all of our students.

## SEND and Vulnerable Students

Reasonable adjustments are made to support learning and empower SEND and vulnerable students through the Personal Development programme. Resources and materials are reviewed by specialist staff to ensure they are developmentally appropriate and considers the context of individual students.

Personal Development supports our SEND and vulnerable students by promoting independence and transition and helping students to stay safe in and out of school. We also target support for SEND and vulnerable students at Netherwood to increase attendance, participation and engagement where concerns are identified.

### **Behaviour, Culture and Context**

Our Personal Development programme supports our behaviour curriculum, which encourages positive behaviour patterns to promote good relationships throughout the school community built on trust and understanding. The behaviour curriculum helps to embed good manners, our core values and instil high expectations to create a positive school culture underpinned by respect.

### Students are explicitly taught:

To develop impeccable manners by being respectful, polite and courteous	To follow all instructions	The importance of excellent attendance and punctuality	How to be responsible in the classroom and at social times
The importance of being fully equipped to every lesson	To always dress smartly	Expectations when transitioning with pace and purpose	How to respond calmly and politely to a consequence or sanction
How to listen attentively	How to work hard	To respect all staff, our community and environment	Expectations in the reset base and in detention
Why all electronic items must be turned off	How to answer and ask questions	How to act as an ambassador outside of school and towards any school visitors	To speak clearly and respectfully
High standards of presentation	How to stay safe during a fire evacuation	To manage expectations around homework	How to seek medical help or pastoral support

In addition, staff responsible for behaviour, attendance and safeguarding meet each half term to reflect upon trends so that

we can ensure our students' Personal Development lessons are targeted and relevant.

## Parent and Carer Partnerships

At Netherwood, we recognise the importance of continuing Personal Development education at home and seek to develop strong relationships with our families. All Parents and Carers will receive Personal Development

communication on topics taught, support available and student achievements. This aims to empower and inform families so that they feel part of Personal Development.

Parents and Carers will have access to the PD curriculum online and our SRE Policy should they require more information.

### **Morning Address**

The start of the day is the most important. The purpose of a morning address is to ensure a calm, organised and purposeful start to every day. The morning address will be led by Progress Leaders, Heads of Year and senior staff, and supported by form tutors. Staff will check for any uniform issues and ensure that all students are ready to learn. It sets the tone and standards at the beginning of each day.

Each week has a theme linked to important character traits and developing

good habits. It is also an opportunity to cultivate the school's culture and over communicate our vision, values, and ethos on a regular basis. The themes each week will link to and complement the PSHE and form time curriculum to reinforce key messages across the whole school. Morning Address also provides an opportunity to publicly reward students, celebrate success and draw attention to national or significant events. Examples of the themes covered each week include: scholarship, tenacity, resilience, respect, kindness, responsibility.

### It Stops Now

The 'It Stops Now' campaign is a high profile, whole school approach to tackling key issues across the school community. 'It Stops Now' runs throughout the academic year and includes relevant and specific themes at key points, each reflecting the needs of our students, the school and the local community. Topics include:

- · Sexual Harassment
- Racism
- Bullying
- Using derogatory language
- Homophobia

The aim of the 'It Stops Now' campaign is not only to educate students on how to deal with these incidents, but also to provide knowledge and understanding of the short and long-term impact of being involved in such incidents, both in and outside of school. This will also provide a greater understanding of what constitutes racism, homophobia and sexual harassment etc., empowering students to report such incidents.

With this increased understanding amongst students, Netherwood Academy

aims to reduce incidents of this nature not only within the school, but also in the local community.

Students learn to understand the importance of the whole community taking a stand against this kind of behaviour, changing the culture, and ensuring students feel safe in the Academy and beyond.

**Key Stage 3** 

		YEAR 7	
	PSHE Curriculum	Form Time Activities	Morning Address Themes
AUTUMN TERM	Managing Change Transition to secondary school, managing emotions and personal safety in and outside school.	<ul> <li>Challenges of starting a new school</li> <li>Building effective relationships</li> <li>Road and bus safety</li> <li>Rail and water safety</li> <li>Black history month</li> <li>What can impact a healthy lifestyle</li> <li>Healthy eating choices</li> </ul>	<ul> <li>Scholarship</li> <li>Curiosity</li> <li>Tenacity</li> <li>Ambition</li> <li>Enthusiasm</li> <li>Responsibility</li> <li>Gratitude</li> </ul>

## Enrichment and Extra-curricular

At Netherwood Academy, we offer a variety of opportunities for our young people, outside of their curriculum time, which provides a rounded, culturally rich education through activities that enhance their learning.

Enrichment gives our students the chance to try new and varied activities which may not strictly fit into the curriculum, but which develop character, resilience and motivation, and encourage them to pursue wider goals. It helps to teach life skills that benefit children beyond the classroom, and can develop an appreciation for cultural and community issues, teamwork and social responsibility.

At Netherwood, we encourage all students to take up as many of these enrichment opportunities as possible to help develop their interests and talents. Enrichment opportunities at Netherwood include:

- Lunchtime and after-school clubs like chess, computing, art or sport
- Music lessons (part funded by the school) and opportunities to use musical talents, for example in choirs, or bands
- School plays, shows, assemblies and sports day
- · School trips and residential visits
- Being active in the local community, such as through litter picks, river surveys, or carol singing in elderly care homes
- Whole-school events like World Book Day and Sports Day
- Supporting charities through activities like Macmillan Coffee Morning or food bank collections
- Working on a school newspaper / newsletter
- Local or national challenges like National School Sports Week, British Science Week
- · Duke of Edinburgh Award
- · Sports Leaders

### **Assemblies**

Students across all Key stages will experience character education, through the assembly programme, and develop their knowledge and understanding of awareness events throughout the academic year. Netherwood staff will deliver key messages to students through the assembly programme. The programme will include Children's Mental Health Week, the Holocaust, what it was and why it happened, Black History Month, why it is important to remember those lost during WWI and WWII, Anti-Bullying Week, Honour Based Abuse, and Local and Community History month.

Behaviour, culture and context and the Astrea behaviour curriculum	National walking month, increasing physical activity	Safeguarding at Netherwood, personal and E-Safety	Why is it important to have respectful relationships?
Developing strategies to manage influence and decision making, regulating emotions, diet and exercise	International day against Homophobia, transphobia and biphobia, what does this mean and what is the impact	Children's mental health week, strategies to access support for mental health, healthy coping strategies	How will I keep myself safe over the summer? Making responsible and positive choices
The Holocaust: what happened and why. Why should it never be repeated	Personal and professional development—applying to join the student council	Does racism still exist in the UK? Black history month, anti- slavery day	Why is Fair trade necessary? Leading to Fair trade fortnight
Developing goal setting skills to support my education	Developing self- awareness and professional skills	How can we address gender inequality	Scholarship—how can knowledge empower me?
LGBT+ history month	Celebrating PRIDE month	Personal Safety on Bonfire night	British Science week
Why is reading important? World book day	Gypsy, Roma and Traveller history month, explaining culture	Women's History Month, International Women's Day	Why is it important to remember those lost in during WWI and WWII
Plastic free month, what is the impact and how can we support this more	Anti-bullying week, theme: reach out, how can we support each other?	Pathways and progression routes. RSE day, what does this mean and what is the impact	Stress Awareness month, coping strategies and supporting each other	What are your human rights? Human rights day 10 <sup>th</sup> Dec	What does it mean to be a citizen of the world? World religion day

### **Student Leaders**

We have numerous opportunities for student leadership here at Netherwood Academy. These include prefects, student councillors, anti-bullying ambassadors and subject leaders such as sports leaders. All play a key role in representing school and leading activities for other students. Being involved as a leader helps our students in so many ways; it helps to build confidence, improve teamwork, encourage problem solving and gives a sense of responsibility.

### **PREFECTS**

Prefects are role models for all students in school and represent school at key events such as parents evenings and coffee mornings for elderly local residents. They are integral in the transition process with our new Year 7s, accompanying them around school on the first three transition days, enabling a seamless integration into Netherwood Academy. Prefects have regular meetings with their Head of Year to discuss ideas of what they would like to do in school, and this is implemented regularly.

### STUDENT COUNCILLORS

Student councillors are elected by their peers and are an important link between students and school leaders. Issues that arise in our regular meetings are fed back to school leaders along with student councillors' suggestions for improvement. Student councillors have also had key input on the rewards system, with opinions sought on the 5-star learner and the end of year rewards. Student councillors play an integral role in planning school events such as Pride Month and Women's History Month.

Student Councillors spoke eloquently in assembly about feminism and the impact of sexism and in another assembly around Pride Month students spoke of their experiences of being trans and what effect hurtful words had on them.

### ANTI-BULLYING AMBASSADORS

Anti-Bullying Ambassadors believe that bullying behaviour is not acceptable and should not be part of everyday life at school. They support others and are upstanders against bullying behaviour and a support network for their peers. They stand to shape attitudes and change behaviours. Our anti-bullying ambassadors complete the Diana Award training for young people to enable them to tackle bullying behaviour and create a safer, kinder school community.

Netherwood Academy is extremely proud of the contributions we have made over the years to support local charities. In 2022 our students voted to support Sheffield Children's Hospital, and with the help of our amazing student leaders, we planned and hosted various fundraising events throughout the year culminating in the Netherwood 3K, in which all of Key Stage 3 participated. We raised an incredible £3148 for Sheffield Children's Hospital, which enabled us to sponsor a snowflake on the building for Christmas 2022. We aim to continue this amazing work throughout each academic year, to help promote a number of different charities and to encourage others to get involved, spread the word and make positive contributions to society and the local community.

### Careers Education, Information, Advice and Guidance

Every young person is entitled to highquality career guidance to make informed decisions about their future. Good career guidance is a necessity for social mobility: those young people without significant social capital or home support to draw upon have the most to gain from highquality careers guidance.

The current transformation of technical education in England means that high quality technical pathways into rewarding careers have never been a more attractive option. It is vital that good careers guidance is embedded throughout education, so that young people will be better equipped to make informed choices about their next steps.

At Netherwood, our students receive this guidance and support through a well planned careers education, information advice and guidance programme, which meets the requirements set out by 'The Gatsby Benchmarks'. The eight benchmarks serve as a framework for improvement in careers provision and have been adopted as part of the Government's Careers Strategy and statutory guidance for schools and colleges.

The eight Gatsby benchmarks of Good Career Guidance are:

- A stable careers programme—Every school and college should have an embedded programme of career education and guidance that is known and understood by students, parents, teachers and employers.
- 2. Learning from career and labour market information—Every student, and their parents, should have access to good quality information about future study options and labour market opportunities. They will need the

- support of an informed adviser to make the best use of available information
- 3. Addressing the needs of each student—Students have different career guidance needs at different stages. Opportunities for advice and support need to be tailored to the needs of each student. A school's careers programme should embed equality and diversity considerations throughout
- 4. Linking curriculum learning to careers—All teachers should link curriculum learning with careers. For example, STEM subject teachers should highlight the relevance of STEM subjects for a wide range of career pathways.
- 5. Encounters with employers and employees—Every student should have multiple opportunities to learn from employers about work, employment and the skills that are valued in the workplace. This can be through a range of enrichment opportunities including visiting speakers, mentoring and enterprise schemes.
- 6. Experiences of workplaces —Every student should have first-hand experiences of the workplace through work visits, work shadowing and/ or work experience to help their exploration of career opportunities, and expand their networks.
- 7. Encounters with further and higher education —All students should understand the full range of learning opportunities that are available to them. This includes both academic and vocational routes and learning in schools, colleges, universities and in the workplace.
- 8. Personal guidance—All students should understand the full range of learning opportunities that are available to them. This includes both academic and vocational routes and learning in schools, colleges, universities and in the workplace.
